ACCOUNTS of Civil War Prison camps are not particularly rare. Most of those in print were published as propaganda, however, to encourage enlistments during the war, to influence public opinion during the trial of Southern prison officials, or to win support for the G. A. R. office-seeker. Naturally enough, these purposes to a large extent determined which accounts should be published. Reminiscences were likely to be slanted to make them more acceptable or effective; and an opinionated diary was more likely than a moderate one to be published. In a few cases there is good evidence that what purported to be day-to-day records of prison life were at least amplified and rewritten before publication.

It is common knowledge that unpublished diaries exist. In some cases their content is too slight to attract wide attention; in other cases the present owners have objections, reasonable or otherwise, to publication; still other manuscripts are simply victims of neglect. The fact that the modern reader is less keenly interested in the propaganda value of such writings has perhaps discouraged publication of some accounts.

The present diaries, now in the hands of Mr. Leonard C. Ferguson, West Middlesex, Pa., were written by his uncle, also named Leonard C. Ferguson, a private in Company B, 57th Regiment, Pennsylvania Volunteer Infantry; and are contained in two little books, each three inches by five, written in ink and pencil. The volume for 1864, perhaps a Christmas gift, has the date printed at the top of each page, and is bound in brown leather; the volume for 1865, obtained in prison, has undated pages, and a cheaper black binding. Both are closed with an overlapping flap, fastened with tongue and slot.

The writer obviously was not a habitual diarist, and there is no

1 Formerly of Transfer, Pa. Mr. Ferguson’s farm was one of those incorporated into Camp Reynolds (Shenango Replacement Depot) during the recent war.
evidence that he kept a diary at any other time. Entries for 1864 do not begin until January 19, earlier pages being used for memo-
manda; and the 1865 entries end very abruptly on November 14. Early entries, when the author was in camp at Philadelphia, are brief and monotonous; while the fullest and most nearly literary record covers the period of action at the front. Prison entries are inclined to be lack-lustre and factual, with a very complete record of prison rations. Homecoming marks a return to the brief and routine entry.

The diarist is not given to overstatement; and his noncommittal style is in marked contrast to the subjective and lurid style favored in many early-published accounts. Having once said that Southern rations were inadequate, he does not labor the point. He expresses no bitterness against prison guards and officials, though this is probably a precautionary measure. The diary shows a few rather remarkable omissions, of which the most conspicuous occurs at the time of his return home.

It is evident throughout that the diaries were not intended for publication. Explanatory notes are altogether wanting, and persons are unidentified. Omitted punctuation and uncorrected spelling are further evidence of this fact. An unfamiliar name may be misspelled when first used and corrected in later entries; but the earlier entry remains unchanged.

The writing itself is generally distinct and legible; though it varies considerably, depending on the health and frame of mind of the author. Penciled entries are sometimes faded. The final portion of the 1865 diary, written in ink, is in a fine, somewhat nervous hand, but is very distinct and regular.

The author was born January 30, 1839. His father, Thomas Ferguson, who lived just north of Clarksville, Mercer County, Pa., died in 1849, survived by his widow, Experience; six sons, Samuel, Jonathan, Leonard C., Thomas Jefferson, Dennis A., and William; and a daughter, Mary Jane, who married Jonas McKnight. On November 12, 1861, Leonard and his brother, "Jeff," enlisted, for a three-year period, in the 57th Regiment, Pennsylvania Volunteer Infantry. At the end of 1863 most of the men reenlisted. Early in 1865 the 84th Regiment was reorganized and incorporated into the 57th, causing confusion in the regimental muster rolls.2 The

2 See History of the Fifty-Seventh Regiment, by James M. Martin, E. C. Strouss, R. G. Madge, R. I. Campbell, and M. C. Zahniser (Meadville, n. d.), p. 140. (This work is cited as MARTIN.)
brother, Jefferson, left the regiment before 1864, and is not mentioned in the diary.

For a bibliography of published prison narratives, the reader may refer to Hesseltine's *Civil War Prisons,* pages 261-277. McElroy's *Andersonville* is a well-known and detailed account of Southern prisons; but it is not unbiased, and contains some errors of fact. Accounts of the 57th Regiment appear in Bates' *History of Pennsylvania Volunteers,* II, pages 246-284; and in the regimental history compiled by Martin and others. The Andersonville Hospital Register has been reprinted in several of the prison accounts. No attempt has been made at exhaustive annotation of the present diaries; their text itself is the only significant part of this article.

Camp Sumpter near Andersonville, GA. From Macon to Andersonville 60 Mile.

Writing changes from ink to pencil.
An event of the preceding day is worth mentioning. The prison camp had been troubled by a gang known as “Moseby's Raiders.” In self-defense other prisoners organized the “Regulators,” who, with official approval, tried a number of alleged Raiders, and on July 11 hanged six of them. As entries for Sept. 5 and 26 show, this did not entirely end the trouble. (See HESSELTINE, pp. 144-145.)
JULY WEDNESDAY, 13 1864
Very warm this Morning. Draw Rations in Evening of Corn Bread & Meat.
