With this edition of *Pennsylvania History* we introduce a new feature—an annual bibliography covering titles in Pennsylvania history for the previous or earlier years. This current bibliography follows the same format as the tri-annual *Pennsylvania Historical Bibliography* published by the Pennsylvania Historical and Museum Commission. Some titles dealing with more than one topic appear more than once under different topical headings. For the most part, however, titles have been listed under only one chronological era and topic. Each chronological era is designated by a Roman Numeral. Each era is sub-divided into the same topics and sub-topics. For this journal, topics are listed the first time they appear and are not repeated as a header for each sub-topic. The most recently published *Pennsylvania Historical Bibliography, VI: Additions Through 1985* (1989) compiled by John B.B. Trussell, Jr., will explain topics and sub-topics, abbreviations and periodicals used, and can be purchased for $7.95 directly from the Pennsylvania Historical and Museum Commission, Box 1026, Harrisburg, PA 17108. Readers are invited to contribute to the *Bibliography* by sending notices of titles omitted and forthcoming to the compiler at the above address.
