

ORGANIZATIONAL STRUCTURE AND POLITICS OF ESTABLISHED WOMEN IN ENGINEERING PROGRAMS

Moderator: Carol B. Muller, Ph.D.
Associate Dean, Thayer School of Engineering
Co-Founder, Women in Science Project
Dartmouth College

Carol B. Muller is currently Associate Dean for Administration at Thayer School of Engineering at Dartmouth College. In addition to a number of general responsibilities in the Dean's Office, she has particular responsibility for the School's board management planning, external relations, and special projects and programs. She has spent 18 years in higher education administration, including doctoral work in administration and policy analysis, with a special interest in gender issues in education and employment. In 1990, she co-founded the Women in Science Project at Dartmouth, now recognized as a national model for the retention of undergraduate women in science and engineering.
