

ISSUES FOR ENGINEERING STUDENTS WITH DISABILITIES

Moderator: Betty Preece
Science Education Consultant

Betty Preece has retired from two careers so far: electrical engineer and secondary physics/science/math teacher. In addition to her work as Executive Secretary of the Florida Academy of Sciences, she is a volunteer engineer in the 45th Civil Engineering Squadron, Patrick AF Base, Florida, where she is the Coordinator of accessibility for the disabled for the base.

As an active Physics Teaching Resource Agent, Ms. Preece conducts training for teachers and fun science activities for students of all ages. She holds a BS in Electrical Engineering and a MS in Science Education. SWE elected her a Fellow. She writes a regular column on science in the community for AWIS magazine.
