Moderator

Carol B. Muller, Ph.D.
President, Blue Sky Consulting
Palo Alto, California

Since 1996, Carol B. Muller has been president of Blue Sky Consulting of Palo Alto, California, specializing in strategic planning and program development for non-profit organizations, and telecommuting as executive director of the Dartmouth Project for Teaching Engineering Problem Solving at Dartmouth College in Hanover, New Hampshire. She graduated from Dartmouth in 1977, and earned her Master's (1981) and her Ph.D. (1985) degrees in education (administration and policy analysis) from Stanford University. She has spent 20 years in higher education administration, including work in college admissions, residential education, facilities and program planning, and was appointed Assistant Dean at Thayer School of Engineering at Dartmouth College in 1987, co-founded Dartmouth's Women in Science Project in 1990, and became Associate Dean in 1992. She currently serves as a member of WEPAN's Board of Directors.
