**Presenter**

Miriam K. Maslanik, Ph.D., P.E.  
Associate Director, Women in Engineering  
University of Colorado

Miriam K. Maslanik, Ph.D., P.E., is founder and Associate Director of the Women in Engineering Program at the University of Colorado at Boulder. In addition to her WIEP responsibilities, Maslanik developed a system to track all undergraduates through the College of Engineering and Applied Sciences.

Miriam Maslanik holds BS and MS degrees in Chemical Engineering from Penn State and a Ph.D. in Chemical Engineering from CU-Boulder. She is a registered professional engineer in Colorado.

Maslanik served on the WEPAN Board of Directors from 1993-1996, and she was chair of the 1996 WEPAN National Conference. She has held various offices in SWE, most recently President of the Rocky Mountain Section in FY96 and currently, CSR Representative.
