

STRATEGIES FOR CLOSING THE GENDER GAP

Moderator

Nancy M. Tooney, Ph.D.
Associate Dean of Engineering and Applied Sciences
Polytechnic University

Dr. Nancy M. Tooney is Associate Dean of Engineering and Applied Sciences at Polytechnic University. She is a graduate of SUNY – Albany [chemistry] and Brandeis University [biochemistry], and had extensive postdoctoral training in biophysics at Harvard Medical School/Children's Cancer Research Foundation. At Polytechnic, Nancy has served as PI on research grants from NIH and as PI or CoPI on grants from NSF and DOD-ONR for the support of minority students in engineering and science programs. She serves as an institutional liaison to the Gateway Engineering Education Coalition.

She currently serves as the Grants coordinator for National AWIS, and on the national ACS Women Chemists committee associate, as well as on the steering committee of the Section of Women in Science of the New York Academy of Sciences.
