

WIE ROLE IN CORPORATE CONNECTIONS TO HIGH POTENTIAL STUDENTS

Moderator

Debra A. Fowler
Workforce Planning Manager, Human Resources
The Dow Chemical Company

Debra Fowler graduated from South Dakota School of Mines and Technology with a Bachelors of Science degree in Chemistry. She began her career in Research with The Dow Chemical Company in Midland, MI. The research stretched into the technical service area where Debra provided technical support to various Dow customers. Her career path then rolled over into manufacturing with the responsibility of overseeing a pool of new engineers. This broadened into the Human Resource area where she has held various positions in diversity, training, compensation, employee development, out placement, and a generalist role. Debra is an individual that can anticipate future trends and steer the organization in a direction to prepare for those changes. Her current role is Workforce Planning Implementation Leader.
