

CURRENT RESEARCH

Moderator

Jorja Kimball

Assistant Research Development Officer, Texas A&M University

Jorja Kimball serves as Assistant Research Development Officer for the Research Development and Grant Writing Division of the Texas Engineering Experiment Station (TEES). TEES is an agency of the Texas A&M University System, with the primary focus of facilitating research at university settings both internal and external to the TAMU System. During her prior seven years at Texas A&M University Kingsville, she held numerous positions, including Director of the Women and Minority Program and Director of Engineering Special Programs, and coordinated components on NASA and NSF funded projects, including the multi-institutional Texas Alliance for Minority Partnerships (AMP) and the Foundation Coalition project. Her experience entails K-12 Outreach efforts, community college, undergraduate and graduate efforts with regard to underrepresented and underserved populations.
