

THE COLLEGE EXPERIENCE: CURRICULUM

MODERATOR

Phyllis Brady co-directs the Engineering Student Support Center at the University of California, Santa Barbara. Her responsibilities include directing the Women in Engineering Program for under-graduate and graduate students, and reaching out to young women at the pre-college level. She also directs the Mathematics, Engineering, Science Achievement (MESA) Schools Program, a national outreach program for educationally underserved students. This academic and career support program is particularly successful with young women.

Phyllis' graduate degrees are in education, including doctoral work in International Education focusing on an anti-bias approach to science education. Phyllis taught and consulted in Africa and the Middle East for nearly a decade. She is the recipient of many awards honoring her work in diversity education, including special U.S. Congressional and Senate recognition, and a Native American Woman of Achievement honor at the University of California, Santa Barbara.
